## ZONING BYLAW AMENDMENT – SIDE YARDS

**ARTICLE 43.** Upon a **MOTION** duly made and seconded, the following was **VOTED BY A TWO-THIRDS MAJORITY** and so declared by the Moderator:

To amend the Zoning Bylaw as follows:

In subsection 6.2.7, insert the following paragraph at the end of the subsection:

“In the Residence C District, any part of the principal structure that extends into the three (3) foot side yard exception area shall be no greater than fifteen (15) feet in height as defined in subsection 6.2.11. The Board may grant relief from the fifteen foot height limitation in the three (3) foot side yard exception area provided the Board finds that there are no reasonable alternatives available and that the desired relief may be granted without substantial detriment to the neighborhood and without derogating from the intent and purpose of this Bylaw.”

So that the subsection reads as follows:

*6.2.7. Side yards:* Side yards shall be measured from the nearest point of any dwelling or structure to each side lot line, provided that nothing shall prevent the projection of uncovered steps and ramps or the construction of walls and fences. In the residential districts or for single-family dwellings in the Business or Medical-Professional districts, the width of one side yard may be reduced by an amount not to exceed three (3) feet if the width of the other side is correspondingly increased. Notwithstanding the foregoing, a building of accessory use may be placed not less than five (5) feet from a sideline so long as such building is not to be located nearer the sideline of the right-of-way than the rearmost point of the dwelling or any structure attached thereto.

In the Residence C District, any part of the principal structure that extends into the three (3) foot side yard exception area shall be no greater than fifteen (15) feet in height as defined in subsection 6.2.11. The Board may grant relief from the fifteen foot height limitation in the three (3) foot side yard exception area provided the Board finds that there are no reasonable alternatives available and that the desired relief may be granted without substantial detriment to the neighborhood and without derogating from the intent and purpose of this Bylaw.

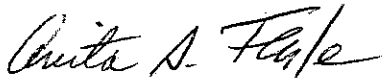

And, in Table III – Dimensional Regulations, add footnote 1 as follows:

Zoning Districts	Min. Lot Area in Sq. Ft.	Min. Lot Frontage In Feet	Frontage Exception In Feet	Min. Lot Width In Feet	Min. Front Yard In Feet	Min. Side Yard In Feet	Min. Rear Yard in Feet	Corner Clearance In Feet	Min. Height In Feet	Max. Lot Coverage %	Max. Floor Area Ratio

## ZONING BYLAW AMENDMENT – DEFINITION OF HEIGHT

**ARTICLE 44.** Upon a **MOTION** duly made and seconded, the following was **VOTED BY A TWO-THIRDS MAJORITY** and so declared by the Moderator:

To amend the Zoning Bylaw as follows:

In subsection 6.2.11, after the first two paragraphs, add the following paragraphs at the end of the subsection:

“In the Residence C District, the height of a building shall be measured as the vertical distance from the ‘base elevation’ to the peak of the roof, or the highest point of the exterior in the case of a flat roof. The ‘base elevation’ is the average of the elevations of the ground where the two corners of the lowest foundation wall of any existing structure meet the ground. In the absence of an existing structure, the base elevation shall be the average elevation (measured as indicated in the previous sentence) of the ground at the location on the site where the new building is to be placed, prior to any grading or mounding.

The Board may grant relief from the above definition for the height of a building in the Residence C District provided the Board finds that a literal application of this requirement would be unreasonable because there are no reasonable alternatives available and that the desired relief may be granted without substantial detriment to the neighborhood and without derogating from the intent and purpose of this Bylaw.

In the Residence C District any part of the principal structure that extends into the three (3) foot side yard exception as defined in subsection 6.2.7 shall be no greater than fifteen (15) feet in height.”

So that the subsection reads as follows:

*6.2.11 Height:* The height of a building shall be measured as the vertical distance from the mean ground level of each side of the building to either the highest point of the exterior in the case of a flat roof or to the mean average finished grade between the plate and the ridge in the case of a pitched roof. Chimneys, spires, towers, and other projections not used for human occupancy or storage may extend above the height limits herein fixed except wind turbine facilities, which can only exceed the maximum height requirement by special permit granted by the Board.

In the Medical-Professional District south of Route 2, no portion of a building shall exceed thirty-five (35) feet in height unless such portion sets back from each street and such Medical-Professional District boundary line an amount equal to the sum of (1) the applicable minimum yard requirement and two (2) feet for each foot of height in excess of thirty-five (35) feet, provided that in no case shall any portion of a building exceed one hundred ten (110) feet in height.

In the Residence C District, the height of a building shall be measured as the vertical distance from the 'base elevation' to the peak of the roof, or the highest point of the exterior in the case of a flat roof. The 'base elevation' is the average of the elevations of the ground where the two corners of the lowest foundation wall of any existing structure meet the ground. In the absence of an existing structure, the base elevation shall be the average elevation (measured as indicated in the previous sentence) of the ground at the location on the site where the new building is to be placed, prior to any grading or mounding.

The Board may grant relief from the above definition for the height of a building in the Residence C District provided the Board finds that a literal application of this requirement would be unreasonable because there are no reasonable alternatives available and that the desired relief may be granted without substantial detriment to the neighborhood and without derogating from the intent and purpose of this Bylaw.

In the Residence C District any part of the principal structure that extends into the three (3) foot side yard exception as defined in subsection 6.2.7 shall be no greater than fifteen (15) feet in height.

And, in Table III – Dimensional Regulations, add footnote 2 immediately following footnote 1, as follows:

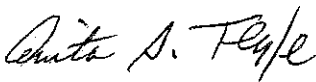

Zoning Districts	Min. Lot Area in Sq. Ft.	Min. Lot Frontage In Feet	Frontage Exception In Feet	Min. Lot Width In Feet	Min. Front Yard In Feet	Min. Side Yard In Feet	Min. Rear Yard in Feet	Corner Clearance In Feet	Max. Height In Feet	Max. Lot Coverage %	Max. Floor Area Ratio
Residence C	10,000	80	80	64	20	15 <sup>1</sup>	Lesser of 30' or 25% of lot depth	10	35 <sup>2</sup>	_____	_____

To add references for Maximum front yard and Minimum building height to Sections 6.2.6 and 6.2.11, respectively, amend **TABLE III – Dimensional Regulations** by adding references to a minimum height and a maximum front yard under the columns for height and front yard for the West Concord Business (WCB) District and the proposed West Concord Village (WCV) District, and change the minimum front yard in the WCB District and WCV District from ten (10) feet to zero (0) feet, as shown below:

*6.2.6 Front yards:* Front yards shall be measured between the sideline of the right-of-way and the nearest point of any structure, with the exception of uncovered steps and ramps or the construction of walls and fences. In all cases, corner lots shall be considered to have two (2) front yards and two (2) side yards. A lot having frontage on two (2) streets shall have two (2) front yards, each of which shall comply with the requirements of the front yard provisions.

In the West Concord Business and West Concord Village Districts, there shall be a maximum front yard of ten (10) feet, that is, no portion of a building shall be set back from the front lot line by more than ten feet unless a special permit is granted to allow a greater front yard depth. *6.2.11 Height:* The height of a building shall be measured as the vertical distance from the mean ground level of each side of the building to either the highest point of the exterior in the case of a flat roof or to the mean average finished grade between the plate and the ridge in the case of a pitched roof. Chimneys, spires, towers, and other projections not used for human occupancy or storage may extend above the height limits herein fixed except wind turbine facilities, which can only exceed the maximum height requirement by special permit granted by the Board.

In the Medical-Professional District south of Route 2, no portion of a building shall exceed thirty-five (35) feet in height unless such portion sets back from each street and such Medical-Professional District boundary line an amount equal to the sum of (1) the applicable minimum yard requirement and two (2) feet for each foot of height in excess of thirty-five (35) feet, provided that in no case shall any portion of a building exceed one hundred ten (110) feet in height.

In the West Concord Business and West Concord Village Districts, the minimum height of the side and rear portions of a principal building shall be fifteen (15) feet; the front façade shall have a minimum height of eighteen (18) feet.

**ZONING BYLAW AMENDMENT**  
**FORMULA BUSINESS WITH A CAP**

**ARTICLE 54.** Upon a **MOTION** duly made and seconded, the following was **VOTED BY A TWO-THIRDS MAJORITY** And so declared by the Moderator:

To amend the Zoning Bylaw to add a definition of 'Formula business' and to define the number, location and visual features of such businesses in the West Concord Business (WCB) District and the West Concord Village (WCV) District as provided below:

Amend Zoning Bylaw Section 1 by adding a new definition as follows, and renumbering subsequent paragraphs:

1.3.10 *Formula business:* A type of business activity that maintains two or more of the following standardized features:

1. array of services and/or merchandise, or menu
2. trademark, logo, service mark or symbol
3. décor, architecture, layout or color scheme
4. uniforms
5. sign

and these features are the same as or substantially the same as fifteen or more such establishments, regardless of ownership or location. Formula businesses shall not include post offices, churches, schools, government facilities, grocery stores or accessory uses.

And, amend Zoning Bylaw Section 3. USE REGULATIONS by adding a new subsection 3.3 Formula Business, as follows:

**3.3 Formula Business**

3.3.1 *Purpose.* The purpose of regulating the number, location and visual features of formula businesses in the West Concord Business District and the West Concord Village District is to maintain the unique, small-scale, small-town character and the quality of life for all Concord residents by preserving the individuality and distinctive appeal of the West Concord Business and West Concord Village districts. Preservation of the existing character, diversity, variety and scale of West Concord's Business and Village districts is also vital to the continuation of West Concord's ability to attract both residents and visitors. West Concord's Business and Village districts currently provide a mix of unique businesses, architecture, signage, and graphic and other design elements, which gives West Concord a distinctive visual appearance and small-scale eclectic ambiance. These goals are evidenced in the Comprehensive Long Range Plan of 2005, the Village Centers Study of 2007, the Call to Action of 2008, the West Concord Task Force Public Survey of 2009, in committee and public

comment in public meetings and public forums of the West Concord Task Force and in the West Concord Master Plan of 2010.

3.3.2 *Limitation on the number of formula businesses in the West Concord Business District and the West Concord Village District combined:* Limiting the number of formula businesses will allow the West Concord Business District and the West Concord Village District to avoid the proliferation of businesses that are homogeneous, visually obtrusive, and often have a high impact on infrastructure, will safeguard West Concord's historical relevance, and will ensure that Concord residents and tourists continue to have unique dining, retail and service experiences in West Concord.

The total number of formula businesses in the West Concord Business District and the West Concord Village District combined is limited to ten. When the total existing number is equal to or greater than ten, no new formula businesses can be established until and unless an existing formula business closes, adapts so that it no longer qualifies as a formula business, or relocates outside of the West Concord Business or West Concord Village Districts. If a business in current operation becomes a formula business by means of additional locations being established, this business shall count toward the total number of formula businesses, but shall not be considered as a formula business being established.

3.3.3 *Special permit required:* The establishment of a new formula business or expansion or relocation of an existing formula business in the West Concord Business District and the West Concord Village District shall require the grant of a special permit as defined in Section 11.6 from the Planning Board.

3.3.4 *Additional criteria for establishment, expansion, or relocation of a formula business in the West Concord Business District and West Concord Village District:*

- a) The formula business is designed and operated in a manner that preserves the community's distinctive small-town character and eclectic ambiance;
- b) The formula business contributes to the diversity of uses to assure a balanced mix of businesses available to serve residents and visitors;
- c) The formula business does not result in an over-concentration of formula businesses in its immediate vicinity;
- d) The formula business use, together with the design and any improvements, is compatible with the existing architecture and unique aesthetic appearance of the district;
- e) The formula business shall not increase the intensity of use on the site to a level that will adversely impact land uses in the area, pedestrian or motor vehicle traffic or the public welfare; and
- f) No drive-through facilities are allowed.

3.3.5 *Determination:* A formula business may adapt its business activities in consultation with the Building Inspector so that the proposed establishment no longer qualifies as a formula business as defined in subsection 1.3.10.
