

**CONCORD MUNICIPAL LIGHT PLANT
ELECTRIC RATE SCHEDULES**

RATE R-1 OP
RESIDENTIAL SERVICE WITH OFF PEAK RIDER

Mass DTE No. 236
Replaces Mass DTE No. 231

Effective: July 1, 2004

The Concord Municipal Light Plant (the "**CMLP**") shall charge and collect for residential service on the basis of this rate schedule. The Purchased Power Cost Adjustment Clause, the NYPA Power Cost Adjustment Clause, the Energy Conservation Service Charge, the Underground Utilities Charge and the CMLP Rules and Regulations are incorporated by reference as a part of this rate schedule.

Availability

This rate schedule is available throughout the entire territory served by the CMLP Electric System (the "**CMLP System**"). Under this rate, service is available for off-peak Electric Thermal Storage (ETS) systems with the following provisions. Energy consumed during the off-peak periods, as defined below, will be at the off-peak rate.

All energy consumed during the remaining periods will be at the on-peak rate. Loads served under this off-peak provision must be directly controlled by the CMLP, be acceptable to the CMLP and make a positive contribution towards improving the CMLP system load factor.

Applicability

This rate schedule is applicable to all electric service required by the Customer exclusively for domestic purposes for individual (single family) private residences and individually metered apartment units. The electrical connection of any equipment or appliance(s) installed so as to use off-peak energy under this rate must be inspected and approved by the CMLP. The electrical supply to the off-peak equipment or appliance(s) must be controlled by the CMLP.

This rate schedule is not applicable to businesses, licensed boarding or rooming houses, fraternity or sorority houses advertised as such, educational institutions or facilities, apartment houses including the common facility requirements, or the common facility requirements of residences also used for business purposes, evidenced by any form of advertising including a separate white page telephone listing, which will be served under the appropriate general service rate schedule.

Character of Service

Service under this rate schedule shall be alternating current, 60 Hertz, single phase, at CMLP's option of the standard voltages available from the CMLP System. The CMLP may, at its option, provide three-phase service when individual motors rated at 5.0 horsepower or larger are connected to the CMLP System. Standby or resale service is not permitted under this rate schedule. Customers receiving three phase service will be assessed three times the single phase Meter Charge.

Monthly Rate

Meter Charge (Single Phase)	\$8.05 per month
Energy Rate:	
On-peak	\$0.15169 per kWh
Off-peak	\$0.05 per kWh

The above rate per kWh will be adjusted plus or minus in accordance with the formulae specified in the Purchased Power Cost Adjustment Clause and the NYPA Power Cost Adjustment Clause. The amount computed at the Monthly Rate shall be subject to taxes, assessments or surcharges imposed by any governmental authority which is assessed on the basis of revenues from electric service or volumes of electricity purchased or sold by the CMLP.

Billing Periods

Off-peak hours are from Noon to 3PM & 11PM to 7AM, Monday-Friday and weekends from October 1st through May 31st. All the remaining hours are on-peak. Rate R-1 will apply from June 1st to September 30th.

Minimum Charge

The monthly minimum charge shall be the sum of the Meter Charge, the Energy Conservation Service Charge and all applicable rate adjustments.

Terms

The Monthly Rates are net and bills are due on presentation. Bills will be rendered either monthly or bi-monthly, at the sole discretion of the CMLP. When bills are rendered bi-monthly, the Meter Charge, the Energy Conservation Service Charge and the number of kilowatt-hours in each Energy Rate block will be multiplied by two (2).

Effective Date

This rate schedule is effective for all consumption on or after the effective date shown above.

Interruption of Service

The CMLP will make reasonable provisions to assure satisfactory and continuous service, but does not guarantee a continuous supply of electric power and energy from the CMLP System facilities and shall not be liable for damage occasioned by interruptions of service or failure to commence delivery caused by acts of God, or the public enemy, or for any cause reasonably beyond the control of the CMLP, including, but not limited to, the failure or breakdown of facilities, floods, fire, strikes, or actions or orders of any agency having jurisdiction in the premises, or for interruptions which are necessary for inspection, repair, or changes in the equipment and facilities of the CMLP or the bulk power supplier(s) to the CMLP System.

The Customer shall notify the CMLP immediately of any defects, troubles or accident which may in any way affect the delivery of electric service by the CMLP from the CMLP System.

Term of Contract

Service under this rate schedule is subject to termination at any time upon the CMLP's receipt of written notice from the Customer, subject to the provisions of the Rules and Regulations for Electric Service.
