

**Community Conservation Challenge
Statement of Services**

The Town of Concord retains the services of _____ (*name of organization*) to promote water conservation from the signature date (below) through October 30, 2008.

_____ agrees to do the following:

- Learn about and promote water conservation opportunities available to Concord water customers to members of its organization and the public as appropriate.
- Actively promote water conservation within _____'s team including the Town's outreach and educational efforts aimed at reducing lawn watering and other outdoor uses, fixing water leaks, upgrading appliances, and replacing old toilets.
- Permit the Town to use the organization's name in Community Conservation Challenge promotional materials.
- Abide by the project requirements identified in the application materials.

Compensation will be based on _____'s success in reducing water use. For every member of the _____'s team, it will be paid \$2 for each percentage point of water reduced from the team's three-year average measured from May through October 2008, not to exceed \$1,000. This will be based billing data obtained from meter readings.

The services shall be conducted under the general direction of Concord's Water Conservation Coordinator.
